## Press Release

# Department of Labor Releases October Unemployment Report

*October Unemployment Holds Steady at 3.8%*

**BALTIMORE, MD (November 17, 2017)** – The U.S. Department of Labor’s Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland’s unemployment rate held steady at 3.8 percent. Maryland’s unemployment remains at a nine-year low and once again falls below the national average of 4.1 percent.

“The Hogan administration is committed to strengthening Maryland’s economy,” said Maryland Labor Secretary Kelly M. Schulz. “The Department of Labor is fulfilling that commitment through innovative workforce solutions, like the Maryland Apprenticeship and Training Program. This week, during National Apprenticeship Week, we welcomed six new apprenticeship programs to help Maryland prepare for tomorrow’s workforce, and celebrated our first IT apprentice graduate.”

Since January 2015, Maryland has gained 125,500 jobs. Compared with this time last year, Maryland jobs are up by 54,400, an over-the-year change of 2%.

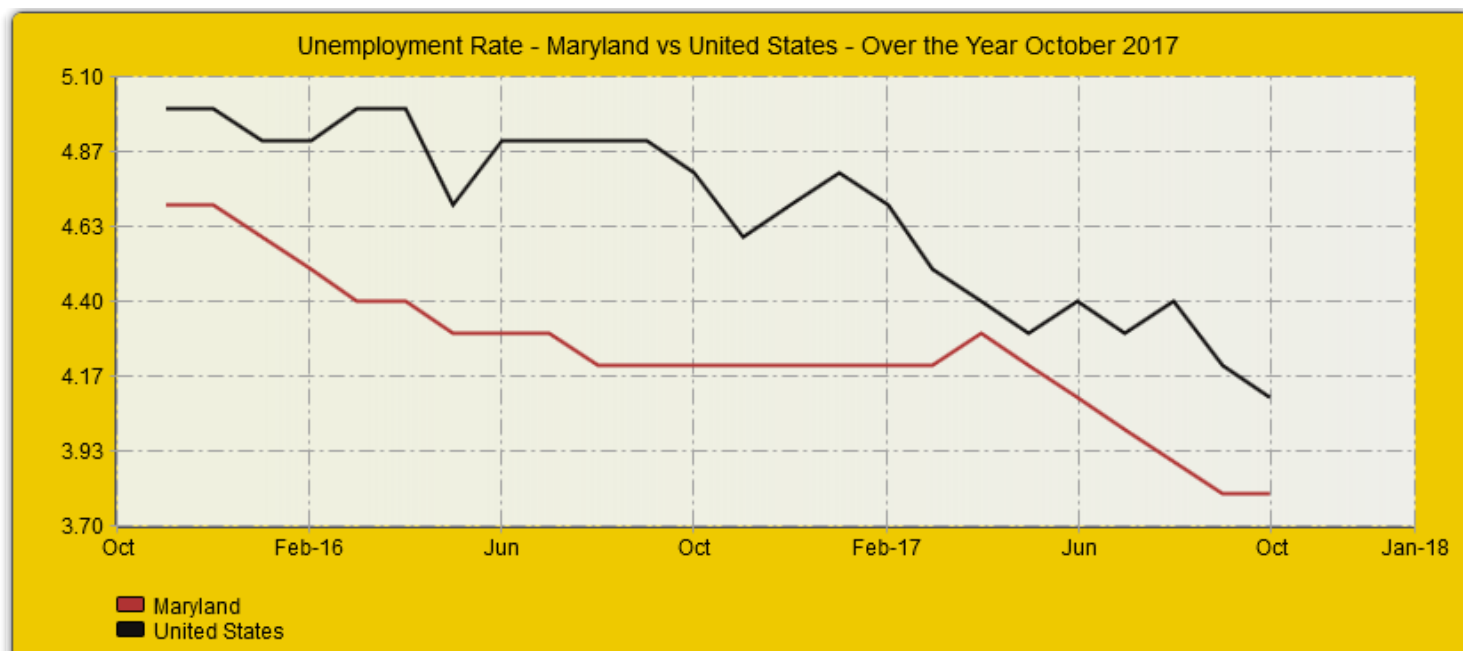

According to the data released today, the Education and Health Services sector posted the highest gains with an increase of 1,500 jobs: 1,300 in the Health Care and Social Assistance subsector and 200 in the Educational Services subsector. Mining, Logging and Construction also increased, with 500 jobs. The Manufacturing sector increased by 200 jobs.

Experiencing decline were the Trade, Transportation, and Utilities sector by 3,200 jobs; the Professional and Business Services sector by 2,500 jobs; and the Leisure and Hospitality sector by 1,400 jobs. Information, Financial Activities, and Other Services also decreased. In total, 5,500 jobs were lost from September to October.

The state’s preliminary jobs estimate for September was revised upward by BLS from a gain of 2,400 to a gain of 3,200 jobs.

### Performance Horizon relocates growing Baltimore office

According to the Baltimore Sun, Performance Horizon, a United Kingdom-based partner marketing software provider, has relocated its Baltimore office to a larger space in Highlandtown to accommodate its growth. The company is moving out of the Emerging Technology Centers space in the old Crown Cork & Seal factory into its own 7,000-square-foot space nearby at 31 N Haven St.

## Glossary of Terms

**Nonagricultural payroll employment:** Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period which includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

**Civilian labor force:** All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

**Employed persons:** All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

**Unemployed persons:** All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

**Unemployment rate:** The ratio of unemployed to the civilian labor force expressed as a percent.

**Seasonal adjustment:** A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
